

# Advantage KLOK Systems

# CONTACTUS

## Customer Focus

At Klok Systems, we believe Being Available to the customer is key to Customer Focus. Also, reliability and adherence to time schedule are key ingredients to success.

## Engineering Excellence

Our engineering team has worked with best of International Aerospace teams. It has demonstrated engineering excellence with Do It Right First Time.

# Complete AVIONICS ENGINEERING SERVICES

Engineering Services as per DO-178B/C, DO-254  
and DO-160 F/G, as per DAL A through D

**Klok Systems**  
Excellence Delivered

[contactus@kloksys.com](mailto:contactus@kloksys.com)  
No. 181, 3rd Main Road, AGS Layout  
Bengaluru - 560061. INDIA.

## Key Aerospace Programs

Our Avionics Engineering Team comes with experience of participation in key International Aerospace programs, like:

1. Airbus A 380, A 350 and A 400M
2. Boeing
3. Pilatus
4. Cessna
5. Light Combat Aircraft (LCA)
6. Light Utility Helicopter (LUH)

## Well Trained & Experienced

Our engineers are trained directly by the FAA DERs.

Our expertise comes from programs certified with FAA, EASA and Indian CEMILAC

## What we offer

Complete Avionics Engineering as per DO-178 B/C, DO-254, DO-160 F/G at DAL A through D.

Engineering as per DO-254, including Design, RTL Coding, FPGA, pSSA/SSA, Automated Test Bench generation.

Low-Level / Unit Level Testing, High Level Software Testing, Hardware Software Integration Testing as per DO-178 B/C

Generation of Cert Artefact, from PHAC, PSAC to Verification Reports.

We are confident of contributing to the success of your programs, with High Quality and On-Time Deliverables.

## Avionics Expertise

Our engineering team has strong expertise from contributing following Avionics LRUs:

1. Flight Display Systems
2. Navigation Systems
3. Secondary Flight Controls
4. Engine Monitoring Systems
5. Data Acquisition Systems
6. Landing Gear Systems

## Quality Procedures

We have participated in programs involving AS-9100 Rev D, ISO 9001:2015, CMMi Level 5 and Indian CEMILAC.

We provide engineering services in both Fixed Price and Time & Material model.
